

OILY AND SEBORRHEIC SKIN, ACNE VULGARIS Salicylic Acid | Gluconolactone | TRIKENOL

IDEAL REGULATION PROGRAMME FOR OILY AND ACNE SKIN

Year-round line of specialised formulations reducing excess of sebum and inflammatory symptoms, with moisturising and antibacterial properties for oily and seborrheic skin, with symptoms of youth and adult acne vulgaris, as well as comedones and enlarged pores.

Gradually and systematically reduces the size of pores, not blocking the exit routes of the accumulated sebum in the sebaceous glands. Fast closing of the pores is not recommended because it leads to accumulation of sebum, which creates an environment favourable to anaerobic bacterial growth.

The active base of the treatment are the original sebo-regulating antiseborrhoeic ingredients fighting bacteria causing acne: salicylic acid and gluconolactone, and plant extracts with anti-inflammatory and soothing properties.

IDEAL PURE ACTIVE FORMULA

PUREPORE reduces sebum secretion and reduces the amount, diameter and size of pores. Mattifies oily skin, evens skin tone and leaves skin looking radiant. It is an excellent active ingredient for oily skin with enlarged pores.

TRIKENOL complex of extracts of Manuka tree, willow and burdock enriched with salicylic acid, reduces excessive sebum production, unblocks sebaceous gland ducts, controls the bacterial flora that causes acne causes. Soothes irritation.

RAMISEBUM anti-acne liposomal complex with PCA cooper, which normalizes and prevents excess sebum secretion, and PCA copper, which prevents collagen degradation and the formation of acne scars. The complex also contains normalizing, antibacterial and anti-inflammatory extracts of white willow, licorice, calendula and violet tricolor.

SALICYLIC ACID Beta hydroxy acid (BHA)- has antibacterial and anti-inflammatory properties, unclogs pores. Exfoliates, removes dead skin cells of the epidermis. Regulates skin cell renewal. Does not cause skin dryness.

GLUKONOLACTONE non-irritating PHA acid, is a natural antioxidant, highly moisturising with anti free radical properties. Stimulates cell regeneration and strengthens skin resistance to aggressive external factors.

MANDELIC ACID regulates cell renewal, improves skin structure and tone. Stimulates collagen synthesis, enhances hydration and elasticity of the skin. Suitable for all year-round application.

AZELAIC ACID Aza [KA] has antibacterial properties, reduces symptoms of inflammatory changes - pustules, papules, redness and erythema. Brightens skin discolorations and scars. It does not cause phototoxic and photoallergic reactions.

AZEOLGLICYNA a modern combination of azelaic acid and glycine amino acids with intense moisturizing, soothing and anti-inflammatory properties. Increases the flexibility of supporting fibers.

THERMAL MUD cleanses, clears, detoxifies

ACTIVE FORMULA ENRICHED:

VITAMIN E, EXTRACTS OF SAPONARIA, BURDOCK, SAGE, LEMON, IVY, BLADDER WRACK, WATERCRESS, HAMAMELIS, EMBLICA, BEARBERRY, MACADAMIA OIL, AVOCADO OIL, SHEA BUTTER, UREA, ALLANTOIN, BETAIN, KAOLIN, TERPINEN-4-OL, BEESWAX, UVA/UVB FILTERS

Indications

- ♦ excessive sebum secretion and skin dehydration
- ♦ visible sebaceous glands
- ♦ proneness to acne or late acne (adult acne)
- ♦ inflammation: pustules, papules, redness and excessive shine
- ♦ thickening of the stratum corneum

Effects

- ♦ regulates sebum secretion without disturbing the natural bacterial flora
- ♦ unblocks sebaceous ducts, reduces comedones and systematically narrows the pores
- ♦ regulates keratinisation of the epidermis and increases skin hydration
- ♦ alleviates irritation and symptoms of inflammation as well as reducing swelling
- ♦ has antibacterial and anti-inflammatory properties

INSTRUMENTAL METHOD

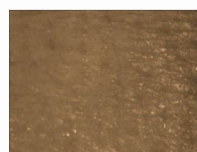

- ♦ sonophoresis
- ♦ iontophoresis

TREATMENT FREQUENCY

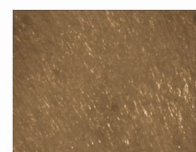

- ♦ 4 - 6 treatment sessions in a series, once a week gradually increase treatment intervals to 14 days
- ♦ or as an individual treatment

TREATMENT TIME

- ♦ 80 minutes

Before treatment

After treatment

Test carried out with the MULTI SKIN CENTER MODEL MC 900 device: after a series of 4 IDEAL PURE treatment sessions, sebaceous gland openings significantly decreased.

The effect becomes visible after 21 days
of systematic derm-treatment using
IDEAL PURE

research session, 2012

IDEAL PURE

TREATMENT SCHEME step by step	TREATMENT FORMULATIONS	ACTIVE INGREDIENTS
1. After removing eye make-up using SPECIAL AESTHETICS Luxury Eye Make-up Remover remove face make-up using Anti-Bacterial Herbal Cleansing Gel; the gel residue off with water and tone the skin using Anti-Bacterial Herbal Toner. 2. Apply Anti-Bacterial Spray Lotion on a cosmetic pad and wipe the skin. 3. Apply Poreless Purifying BHA-PHA Lotion on a cosmetic pad and wipe the skin. 4. Apply a selected preparation on the face skin, avoiding the eye area, then wash off with water and tone with Anti-Bacterial Herbal Toner:	SPECIAL AESTHETICS Luxury Eye Make-Up Remover; CP0622 200ml IDEAL PURE Anti-Bacterial Herbal Cleansing Gel Acne-Prone & Oily Skin eliminates sebum excess, reduces comedones, tightens dilated pores of the skin and ensures proper hydration; CP0115 500ml, CD0115 200ml IDEAL PURE Anti-Bacterial Herbal Toner Acne-Prone & Oily Skin restores the neutral skin pH. Has astringent and anti-bacterial properties; CP0215 500ml, CD0215 200ml IDEAL PURE Anti-Bacterial Spray Lotion Acne-Prone & Oily Skin Preparation limiting growth of pathogenic bacteria, recommended before every step of the procedure performed on the skin with bacterial inflammatory changes; CP0207 200ml IDEAL PURE Poreless Purifying BHA-PHA Lotion Anti-Comedone Anti-Bacterial Acne-Prone & Oily Skin with salicylic acid and gluconolactone, reduces unfavourable bacterial flora that causes acne; reduces the number of comedones and symptoms of inflammation. Regulates the secretion of sebum, exfoliates dead skin cells; CD0516 100ml IDEAL PURE 20 PEEL FORMULA BHA-PHA Acid 20% pH 3.5 Acne-Prone & Oily Skin Peeling formula with salicylic acid and gluconolactone PHA with exfoliating and cleansing, purifying, and draining and antibacterial properties; actively moisturises and stimulates cell renewal; CP0410 100ml IDEAL PURE BHA-AHA-MA Acid Mask 32% pH 3.5 Intense Calming Acne-Prone & Oily Skin Mask with salicylic, lactic and mandelic acid 32% pH 3.5 reduces sebum production and symptoms of inflammation; has cleansing properties; especially recommended for skin sensitive to chemical peels; CP0849 100ml IDEAL PURE IONTO BHA-PHA-MA Concentrate 17% pH 3.5 Gel Ampoule Iontophoresis Professional BHA-PHA-MA acids in the ampoule for IONTOPHORESIS (-) with exfoliating, cleansing, purifying and draining, anti-bacterial properties; actively moisturises and stimulates; CP1126 10x2.5ml IDEAL PURE Poly-Derm Oil Control Mask Acne-Prone & Oily Skin Anti-Bacterial Antibacterial mask regulating sebum secretion regulates and reduces sebum production and excessive skin shine, relieves symptoms of irritation and inflammation; CP0846 150ml IDEAL PURE Poreless Thermal Muds Active mud powder with excellent moisturising, sebum regulating and soothing properties; contains the following biominerals: sulphur, silicon, aluminum, magnesium, iron, copper, manganese, selenium and trace elements; CP1001 100g IDEAL PURE Poly-Derm Day Cream SPF20 UVA/UVB Acne-Prone & Oily Skin Anti-Bacterial Anti-Shine Regulating day care cream SPF20 UVA/UVB; reduces sebum production by inhibiting the activity of the alpha-reductase enzyme, stimulating the activity of sebaceous glands. Reduces excessive skin shine; CP1375 100ml, CD1375 50ml IDEAL PURE GLUCO-SALIC ACID NIGHT CREAM Acne-Prone & Oily Skin Anti-Bacterial Anti-Shine Preparation designed for purifying and exfoliating, clearing pores and reducing swelling. Keratolytic, antibacterial properties, regulates sebum secretion. Cleanses pores, reduces their size and removes blackheads. Strongly hydrates the skin, stimulates cell renewal and improves the condition and color of the skin. Helps to reduce swelling, stimulates blood and lymph circulation; CD1376 50ml	extracts of saponaria, calendula, horsetail, witch hazel extract (hamamelis), sage, green tea, macadamia oil, vitamin E, allantoin extracts of burdock, sage, lemon, ivy, saponaria, bladder wrack, watercress, macadamia oil, vitamin E, allantoin, beatine - a mild washing substance extracts of burdock, sage, lemon, ivy, soapwort, bladder wrack, watercress, macadamia oil, vitamin E, allantoin Terpinen-4-ol - an active antibacterial ingredient and anti-inflammatory for skin disinfection Trikenol - reducing sebum, 1% salicylic acid, gluconolactone, extracts of burdock, sage, lemon, ivy, saponaria, bladderwrack, rocket, hamamelis, allantoin 3% salicylic acid, 17% gluconolactone (PHA) 1% salicylic acid, 24% lactic acid, 6% mandelic acid, 1% azeloglycine, azelaic acid, extracts of saponaria, burdock, kaolin, allantoin, beeswax salicylic acid, glukonolaton, mandelic acid, extracts of burdock, sage, lemon, ivy, saponaria, bladderwrack, watercress, bearberry (arbutin), emblica, hamamelis Purepore - normalizing and reducing pores, Trikenol - reducing sebum, azeloglycine, vitamin E, extracts of burdock, sage, lemon, ivy, saponaria, bladder wrack, watercress, macadamia oil, urea, allantoin thermal muds Purepore - normalizing and reducing pores, Trikenol - reducing sebum, azeloglycine, vitamin E, extracts of burdock, sage, lemon, ivy, saponaria, bladderwrack, watercress, macadamia oil, avocado oil, Shea butter, urea, allantoin, beeswax, UVA/UVB filters 1% salicylic acid, gluconolactone, Purepore - normalizing and reducing pores, Trikenol - reducing sebum, Ramisebum - regulating, anti-seborrheic and antibacterial, azeloglycine, vitamin E, extracts of burdock, sage, lemon, ivy, saponaria, bladder wrack, watercress, avocado oil, Shea butter, allantoin
or		
BHA-AHA-MA Acid Mask 32% pH 3.5 manual application time is up to 10-15 minutes * for oily non-dry skin with massive bacterial inflammatory and acne changes		
5. Apply IONTO BHA-PHA-MA Concentrate 17% pH 3.5 Gel Ampoule on the face, avoiding the eye area. Apply with iontophoresis using the “-” setting, with sonophoresis or manually. 6. Apply Poly-Derm Oil Control Mask on the face skin. After 20 minutes, remove the residue of the mask with dry cosmetic tissue. 7. Apply Poreless Thermal Muds on the face, avoiding the eye area. Mix 5g of mask with water to reach the consistency of thick cream. Spread a thin layer on the skin. Wash off after 10 minutes and tone the skin. 8.
