

RETINOCAL PURE

FOR OILY AND ACNE SKIN WITH MASSIVE BACTERIAL INFLAMMATORY CHANGES
RETINO-PEPT acting as retinoic acid | Ferulic Acid

PDT
PHOTODYNAMIC
TREATMENT
LASER LLLT/LED

ANTIBACTERIAL AND ANTI-ACNE TREATMENT
FOR OILY AND SEBORRHEIC SKIN WITH MASSIVE
SYMPTOMS OF INFLAMMATORY CHANGES
CONNECTED WITH ACNE VULGARIS AND ADULT ACNE

is a dermal aesthetics treatment offering spectacular effects, dedicated especially for oily skin with inflammatory changes. This treatment is recommended especially for skin that does not tolerate acid treatment, which is most commonly performed on oily skin, and as an effective therapy when there are contradictions for using retinoic acid.

It can be performed as photodynamic application treatment using PDT 420nm (laser or LED), by means of sonophoresis or manually.

The basic active ingredient of the treatment, i.e. RETINOPEPT, has been clinically tested and its effectiveness has been confirmed.

RETINOCAL PURE ACTIVE FORMULA

RETINO-PEPT an advanced peptide with the anti-ageing properties of retinoic acid, the most powerful anti-ageing ingredient among retinoids, without its undesired effect on the organism. Has anti-inflammatory properties and reduces the size of skin pores. Regulates keratinisation of epidermis, brightens scars and skin discolouration and improves the blood flow. At the same time, stimulates the production of procollagen I, improves elasticity of the skin and facial contours, reduces wrinkles, improves the structure and epidermal cohesion and brightens the skin tone. The effectiveness of this ingredient in blocking the synthesis of metalloproteinases MMP-1 and restoring an appropriate level of procollagen I has been proven.

FERULIC ACID is a powerful antioxidant eliminating free radicals, which cause cell damage, faster ageing of the skin, dehydration, appearance of wrinkles, loss of firmness, and skin discolouration. Repairs the skin matrix, stimulates the synthesis of collagen and elastin and hydrates. Has anti-inflammatory properties. Acts as a photoprotector, strengthens the natural barrier against UV radiation by absorbing the full range of UVA and UVB radiation, including ultraviolet 450 nm. Can be used all year around with appropriate sun protection, does not irritate the skin and is recommended also for sensitive skin.

ACTIVE FORMULA ENRICHED WITH:

VITAMIN E, EXTRACTS OF SAPONARIA, CALENDULA, CORNFLOWER, CYPRESS, HAMAMELIS, THISTLE BURDOCK, SAGE, LEMON, IVY, BLADDER WRACK, WATERCRESS, AVOCADO OIL, SHEA BUTTER, ALLANTOIN, BEESWAX, UVA/UVB FILTERS

Indications

- ♦ oily skin
- ♦ skin prone to acne vulgaris and adult acne
- ♦ skin with symptoms of inflammatory changes of hormonal origin
- ♦ especially for skin that does not tolerate acid treatment and when there are contradictions for using retinoic acid

Effects

- ♦ reduces symptoms of inflammatory changes and skin discolouration
- ♦ minimises pores
- ♦ evens the tone of scars and skin surface irregularities
- ♦ Most effective when applied by means of photodynamic method UV 420nm

INSTRUMENTAL METHOD

- ♦ PHOTO-DYNAMIQ® R/IR/UV LLLT LASER 420nm
- ♦ PDT Laser UV 420nm PHOTO-DYNAMIQ®
- ♦ or other equipment:
low-level PDT Laser UV LLLT 420nm,
PDT LED UV
- ♦ sonophoresis

TREATMENT FREQUENCY

- ♦ 5 procedures in a series once a week
- ♦ or as an individual treatment

TREATMENT TIME

- ♦ 45 minutes

RETINOCAL PURE

TREATMENT SCHEME step by step

1. After removing eye makeup using **SPECIAL AESTHETICS** **Luxury Eye Make-up Remover**

restores the neutral skin pH. Has astringent
and anti-bacterial properties; CP0215 500ml, CD0215 200ml

IDEAL PURE Anti-Bacterial Spray Lotion Acne-Prone & Oily Skin

Preparation limiting growth of pathogenic bacteria, recommended
before every step of the procedure performed on the skin with
bacterial inflammatory changes; CP0207 200ml

SPECIAL AESTHETICS

Lumi-Gel Sensitive Peeling Sonophoresis Professional
with papain and bromelain; gently removes dead skin cells,
smoothes and brightens; CP0415 200ml

Retinocal Pure UV Intense Anti-Acne Kit

UV PROCEDURE KIT AGAINST SYMPTOMS OF ACNE; CP0535

PDT RETINOCAL PURE Gel Ampoule CONCENTRATE IN AMPOULE FOR APPLICATION BY MEANS OF PHOTODYNAMIC METHOD

by sonophoresis or manually; with RETINO-PEPT - the peptide
equivalent of retinoic acid - and ferulic acid, reduces
symptoms of inflammatory changes. Regulates
sebum production and signs of acne, including
acne scars, tightens skin pores. Brightens skin
discolourations of various origin, including those caused
by the sun and hormonal changes, ensures better blood
flow and skin tone; 5x2.5ml

RETINOCAL PURE Day Cream Concentrate SPF20 UVA/UVB CONCENTRATE WITH THE PEPTIDE EQUIVALENT OF RETINOIC ACID

with high sun protection factor SPF20 UVA/UVB, for face,
neckline and cleavage skin. Reduces symptoms of inflammatory
changes and skin discolouration, regulates sebum production
and reduces signs of acne, including acne scars,
tightens skin pores. Brightens and evens the skin tone,
improves the condition of the skin; 1x30ml

SPECIAL AESTHETICS

Kaolin Silver Mask Calming Whitening Anti-Bacterial

Soothes and calms skin irritation, tightens enlarged skin pores.
Dedicated for all skin types. Recommended for use after
treatments that strongly stimulate the skin, when immediate
soothing and calming is required; CP0703 150ml

SPECIAL AESTHETICS Retinocal Pure Intense Cream

Cream with retinoic acid properties; reduces symptoms
of inflammatory changes and discolorations; minimises pores.
Brightens and evens the skin tone. Rejuvenates and has
anti-ageing action. Contains Retino-Pept – an advanced
anti-phlogistic, skin tone brightening and anti-free radical
peptide; CD1434 50ml

ACTIVE INGREDIENTS

extracts of saponaria, calendula, horsetail,
witch hazel extract (hamamelis), sage, green tea,
macadamia oil, vitamin E, allantoin

extracts of burdock, sage, lemon, ivy, saponaria,
bladder wrack, watercress, macadamia oil,
vitamin E, allantoin, beatine - a mild washing substance

extracts of burdock, sage, lemon, ivy, soapwort,
bladder wrack, watercress, macadamia oil,
vitamin E, allantoin

Terpinen-4-ol - an active antibacterial ingredient
and anti-inflammatory for skin disinfection

natural enzymes: papain and bromelain

Retinocept - a peptide equivalent of retinoic acid,
ferulic acid, extracts of saponaria, calendula,
hamamelis, cornflower, cyress

Retinocept - a peptide equivalent of retinoic acid,
vitamin E, extracts of burdock, sage, lemon, ivy,
saponaria, bladderwrack, watercress,
avocado oil, Shea butter, allantoin, beeswax,
UVA/UVB filters

kaolin, hamamelis extract, quinoa extract, silver

Retinocept - a peptide equivalent of retinoic acid,
vitamin E, extracts of burdock, sage, lemon, ivy,
saponaria, bladderwrack, cress,
avocado oil, Shea butter, allantoin, beeswax
